

ADEOS-II Data Utilization Future Plans

13-14 December, 2000

Workshop on ADEOS-II Data Utilization in Asia and Pacific Region
Bangkok, Thailand

Yasuyuki ITO
Earth Observation Research Center

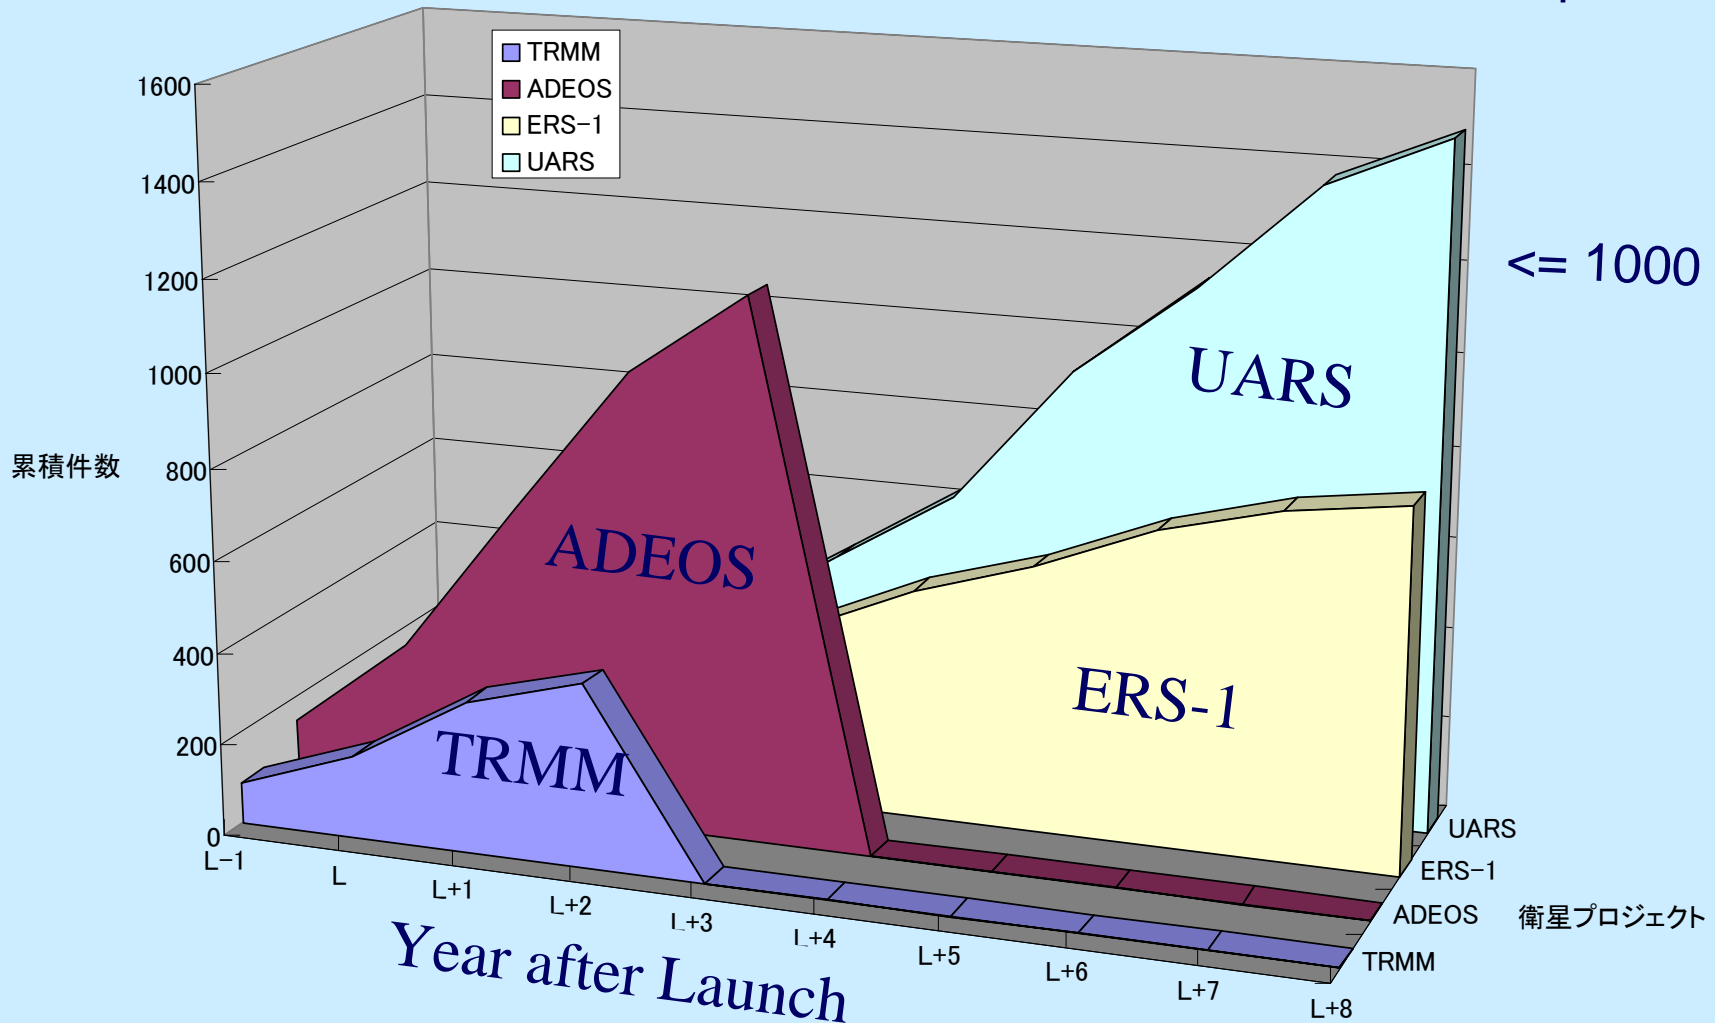

Past Achievements

- Joint Research Agreements via ESCAP with Asian PIs under ADEOS science project
- 20 PIs during 96 - 97 issued reports
- ADEOS-II launch delayed due to ADEOS malfunction and H-II launch failure
- Time for New Planning

Publications (Citation Index)

April 2000

New RA Planning

- Research Announcement for Asia & Pacific Region Planned in JFY2001
 - Budget Requested
- PIs selection via peer review process
- New Regional Cooperative Research considered starting JFY2002
- Continued collaboration with ESCAP planned

Idea of Cooperation

PIs will

- perform research as proposed/accepted
- be provided with needed ADEOS-II data and other available NASDA data
- be invited to science team meetings
- report the research results to NASDA

Discussion Points

- Data Policy - for Clarification
 - Open Policy (within Resources)
 - Technical Issue on Data Acquisition
 - Near Real Time Data with Bilateral Coordination
- Cooperation
 - RA
 - Ground Truth Data Network
 - Field Campaign

Discussion Points

Criteria for Selecting RA Proposals

- draft -

- Encourage new idea of application
- Encourage wider application fields / entities
- Good feasibility
 - basically, based on individual research resources
 - Cooperate to get further funding sources
